NOMAD Farms Summer Camp 2020

Conservation, caretaking, collaboration, composting, & calisthenics for ages 6-12

#thisisfarmcamp

Come prepared to work hard, play hard, take care of and enjoy the land and livestock! Learn how NOMAD Farms and nature work together to produce clean food. Befriend the animals— feed, water, and assist in pasture rotation. Tend the farm garden. Plant seeds, cultivate compost, care for plants and trees, protect from predators. Collect eggs. Appreciate farm-inspired art and storytelling. Make forts. Play old-fashioned games. Keep a field journal and bring your intellect to the challenge. Build character. Explore the wonder of God's creation and understand your role in the stewardship of it.

Last summer Dana Nicholson (Engineer of NOMAD Farms camp curriculum) finished her MA in Education @ Wake Forest University and brings her new inspiration to farm camp in 2020. Cheers to a growth mindset for all farmers, young and old!
